## "CHRISTMAS AT THE RANCH" BRINGS WINTER WEATHER AND HARDY SHOOTERS

BY SHORTY JAMES

Cheers to Howdy Doody who set up five excellent stages for each day, with a few diabolical twists that had everyone smiling and frowning at one time or another. Stage 4 on a frigid Saturday called for double-taps with the rifle through each of the five windows of the caboose – amazing how brain-fade affects one faced with such a simple-sounding task performed under pressure! Then there was the "Five Armed Bandit" to knock off with the rifles, the elusive coyotes, and some thinking stages to keep the 15 Saturday shooters alert

and entertained. Having just one posse resulted in everyone chipping in to help run the stage. It also gave us a chance to talk to everyone - including some out-of-towners. Top shooter on Saturday was Bo Bean.

A nice turnout Sunday resulted in three posses attacking a very challenging course of five new stages along the same theme as Saturday. The election was wrapped up after the pledge of allegiance. It was pretty cut-and-dried since all the

candidates were unchallenged. A unanimous "AYE" vote confirmed the club officers for 2006. Congratulations to new officers Portugee Phillips (sheriff), Ida Mistum (newsletter editor), Snakebite (territorial governor), and relative newcomer Burly Bear Fred (storekeeper). Almost Dangerous accepted a second term as mayor, Even Dozen continues as blacksmith and Ms. Becky remains banker. Basically, a pretty rough crew, except for Ida Mistum and Ms. Becky of course! Many thanks to incumbents Mescalero, Calgary Kate, and Ten Bears for their many efforts this past year to run and promote 5 Dogs Creek.

Knock-down targets seemed to be the order of the day on Sunday, with the "Texas Death Star" claiming many victims. Shooting it with a pistol seemed more than some were up to, but the grousing stopped when Cameo Kate cleaned the stage with her '38s – way to "cowboy up" to that challenge! Bay 9 was started on the timer by roping a calf before the shooting started. I won't mention any names, but if we want to put the "cow" in "cowboy" we'd better all throw a practice rope on our carts. The ropin' was closely followed by two pop-up targets that came pretty easy except to those of us who gave free advise to others on how to "just shoot it at the top, when it's sitting still." You would think I would learn to keep my advise to myself! Anyway, it was a beautiful fall day and everyone seemed to have a great time.

Welcome to new member, Eve Nenjoy from Coalinga – who joined our club this weekend after visiting last

month to watch. I guess she liked what she saw, and I'm sure everyone will make her feel at home at 5 Dogs. I neglected to get the names of the scorekeepers, but thanks a million for your help. Also, we appreciate our out of town guests and want you to keep coming back.

*Burly Bear Fred will serve on the Town Council as the club's new storekeeper.*

There was a speedy bunch on Sunday as the top five cowboys all shot under 200 seconds. Tom Doodley-Squat took top honors. Pocket Change had an impressive day taking the top spot for ladies and placing 11th overall. *Good shooting!*

*Kudos to Shorty James for writing this match summary in my absence. Thanks for stepping up to help! — Calgary Kate*

## TERRITORIAL GOVERNOR SUMMIT REPORT

### BY SNAKEBITE

This years TG summit was as I expected, FAST AND FURIOUS. It has proved to be the most far reaching summit to date. There were about 300 clubs represented at the summit this year. That is a record. I'm pleased that the numbers have increased. It takes a bit more work, but gives us a very broad base of support when we do come up with something. Here are the results, and some comments.

**Item #1** Should all SASS State and higher championships be required to honor all SASS categories even if there is only one participant?  
Yes=242, No=52, Abstain=1

**Item #2** Should all rule changes passed at the TG summit go into effect as of March 1 of the following year? Yes=293, No=2, Abstain=0

**Item #3** Should all BP categories be changed to add the following statement in the shooters handbook?

"It is expected the blackpowder competitor shall contend with smoke-obscured targets. To insure this, all shotgun, revolver and rifle power charges must produce smoke equivalent to a base line load of
